

HONEY BUCKET PRESENT "FURNITURE DAYS"

"Honey Bucket is a very not-punk punk band, or a very punk not-punk band, deeply suspicious of chord changes and more indebted to Captain Beefheart than whatever incongruous reference they'll surely be saddled with. Few people with this much to say make albums that rip from start to finish. It's kind of like how if you start running with a stack of plates at some point the momentum is also keeping you from dropping the plates. Do you know what I mean? It's okay if you don't. Recorded live to 4-track by Raf Spielman. A record for people like me, who need a reason to get out of bed and don't wholly trust bands that haven't built their own world."
